EDUCATION

ARSHA VIDYA MANDIR,
CHENNAI

2010 - 2024

- 10th grade - 93 %
- 12th grade - 86 %

VELLORE INSTITUTE OF
TECHNOLOGY, CHENNAI

2024 - 2028 (Expected)

- B.Tech Computer Science
(Specialization in Data
Science)
- CGPA: 7.82/10

PROFILE

A motivated and enthusiastic second year Computer Science student with a strong foundation in programming, web development, and database management. Experienced in building frontend applications using HTML, CSS, JavaScript, and React, and familiar with backend concepts using Node.js and MySQL. Passionate about learning new technologies, solving real-world problems, and contributing effectively to team-based projects.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, JavaScript, Java

Frontend: React, HTML, CSS, Vite

Backend & APIs: FastAPI, Node.js, Express, REST APIs

Databases: MongoDB, MySQL

AI / ML: Semantic Similarity, LLM Integration, Ollama framework

Tools & Platforms: Git, GitHub, Postman, VS Code, Stripe

PROJECT EXPERIENCE

FoodPrep

2025

Food ordering application

- Technologies: HTML, CSS, JavaScript (Vite), Node.js, Express, MongoDB, JWT, Stripe.
- Built a full-stack food ordering app using JavaScript (Vite), Node.js, Express, and MongoDB.
- Implemented JWT authentication, shopping cart functionality, and Stripe-based payments.
- Developed REST APIs and integrated frontend with backend for real-time order handling.

Capstone Project Registration & Evaluation Portal

2025-2026

Full stack web portal

- Built a role-based full-stack web portal for capstone project registration, slot booking, evaluation management, and automated SLA reminder emails.
- Developed RESTful backend services and integrated a responsive frontend to support students, faculty, panel members, and administrators.
- Tech Stack: React (Vite), JavaScript, Node.js, Express, REST APIs, MongoDB, Cloudinary, Email Services (NodeMailer).

T BARATH

ENGINEERING STUDENT

SKILLS

- Project Management
- Public Relations
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

LANGUAGES

- English (Fluent)
- Tamil (Native)
- Spanish (Basics)

HACKATHON EXPERIENCE

Smart India Hackathon – 2025

2025

Language Agnostic Chatbot

- Designed and implemented a chatbot using a hybrid RAG approach with vector database and a knowledge graph.
- Enabled dynamic FAQ generation and improved answer accuracy from PDF documents.

College Level Hackthons

2024–2025

HR – Bot:

- Developed an intelligent chatbot to automate HR-related queries and frequently asked questions.
- Improved employee interaction efficiency by providing instant responses to common HR tasks.

Insider Threat Detection Dashboard:

- Built an anomaly detection system using Isolation Forest to identify suspicious user activities.
- Developed a React dashboard with real-time visualization and anomaly highlighting using data served from a Node.js and MongoDB backend.

Automated Security Scanner:

- Created a security scanning tool to monitor Python projects for vulnerabilities and misconfigurations.
- Integrated tools like Bandit and Semgrep to detect hardcoded secrets, command injection risks, and insecure file permissions.

CERTIFICATIONS

Modern Web Development

May – June 2025

Completed the Modern Web Development with MERN Stack Certification Course (May–June 2025), securing a score of 75/100 which strengthened my ability to design and develop end-to-end web applications using MERN stack.

Data Science

May – June 2025

Completed the Data Science Certification Program from Launched Global (May–June 2025) and strengthened my expertise in data analytics, machine learning, and statistical modeling, while also gaining hands-on experience with industry-standard tools and technologies.
